

## Coffee Rider

### FEATURED HIGHLIGHTS

- Electric Bike
- Brushless DC wheel hub motor
- 30 - 40km Mileage
- Rated torque 15N/m

### Technical parameters of the vehicle

Overall Size	1830mm x 745mm x 1220mm
Wheelbase	1300mm
Vehicle weight	70kg
Maximum load capacity	150kg
Design the maximum speed	40-45km/h
Recharge mileage	30 - 40km
Rated torque	15N/m
Maximum grade	40
Brake performance	30km/h
Dry and Wet state	Dry state: ≤0.1m Wet state: ≤0.5m

### Technical parameters of the battery

Type of battery	Lithium battery
Capacity	10/12/20Ah
Nominal voltage	voltage 60v

### Technical parameters of the motor

Motor Model	Brushless DC wheel hub motor
Rated power	1000w

### Technical parameters of the controller

Current limiting protection value	≤25± 1A
Under voltage protection value	52± 0.5v

### Technical parameters of the charger

Input voltage (AC)	140~240V 50/60HZ
Output voltage (DC)	71.4± 0.4V
Charge time	(Depending on the amount remaining): 4~6h

### Usage

Age Requirement	From 16yrs and above Adult Supervision
Application	Commuting tar roads only
Warranty Period	90 days Limited Warranty on frame & electric motor Excludes accident and incidental damage
Service Intervals	As and if required or every 6 months
