

VOGE *300DS*

The Voge 300DS is more than capable of answering the call of adventure for both tar or gravel applications- it's the lightweight alternative to heavyweight dual-sport machinery.

ADVENTURE
300DS

The VOGÉ 300DS fills a vital gap in the thriving adventure market, offering a lightweight and affordable alternative to expensive large capacity dual-sport models.

The DS is built to provide comfort and convenience whether on dirt or tar and is ideal for younger, smaller, female or beginner adventure riders who're looking for an agile adventure model. The 300DS features an electric-start, tubeless tyres, disc brakes, LED lights, digital trip-meter, bash plate, rear luggage rack for a topbox and a rally-style windscreen for rider protection. Combine this with a 6-speed gearbox and impressive 130km/h+ top speed and you've got the perfect model to comfortably tackle the great outdoors.
